

## Interior Design I

Welcome to Interior Design I! I am so excited for this class and I think that it will end up being once of your favorite classes that you take here at Northridge. In this class, we will get to explore the elements and principles of design, your own design style, and create awesome designs and floor plans! If you enjoy Interior Design I then you will have the opportunity to later take Interior Design II which offers you college credit!

### Materials Needed:

1. A set of colored pencils. You can get whatever set you like, the more colors you have the more fun you will have designing!
2. I do not have a large selection of interior design magazines. You may want to purchase 2 different interior design magazines (ex: better home & gardens, Traditional Home, House Beautiful, etc.)
3. A notebook that you will use every day to write down the daily review statements.
4. One white mounting board (15X20) for the 3D rooms.
5. One black foam board (20X30) this is not needed until we do our final projects.

**Making up Work:** we will be doing something every single day in this class. If you are ever absent it is your responsibility to find out what you need to do to catch up. We will be designing almost every day so it is very important that you attend class.

**Late work:** If you are absent you have 1 week to get in your makeup work without any late penalties. Late work will always be accepted but for every class period that an assignment is late, 10% will be taken off. Talk to me about individual situations to see what arrangements can be made.

### Class Expectations:

1. Don't ever cause problems for anyone else in class.
2. If you need to take the hall pass just ask. However, if you abuse the hall pass privileges even once you will lose those privileges.
3. Cell phones are permitted in class during work time but not during instruction time. Your phone will be taken away from you if it is a distraction during instructional periods, or if it prevents you from completing work on time.
4. Be an active participant in class. I want to hear your questions, comments, and concerns.
5. You will be given time in class to complete work. Use this time wisely as there are penalties for late work.
6. Respect the materials provided to you in class.
  - a. Do not write/draw on desks.
  - b. Do not break anything that does not belong to you.
  - c. Always clean up your mess.

**Academic Grade:** Because of the concentration of the subject matter, attendance is important! Tardies and absences will affect the student's opportunity to fully participate in the learning activities provided. Students will be graded on participation in each area. Individual assignments, group projects, and tests will contribute to the final grade

**Citizenship Grade:** The citizenship grade is of equal importance as the academic grade. Your behavior in class along with your participation will determine your citizenship grade. Each student starts out with an S (satisfactory). To maintain this grade, the student must be an active participant in class, hand in work, and obey class and school rules. To exceed to G (good) or and H (honor) You must earn it through daily behavior, work ethic, and assignment/food quality. All students have the right to learn and teachers have the right to teach, and there should be no interference.

Truancy will result in lowering citizenship one grade and all points will be forfeited for that day. No make-up work will be allowed. Truancy is an unexcused absence or sluffing.

Students will earn a U in citizenship when speaking or behaving inappropriately when a substitute is in class.

I really hope that you will enjoy this class. I hope that we will all be able to respect each other and become comfortable with each other. Because of the nature of the class, a lot of discussion will take place and will really enhance the effectiveness of the class. Please be ready to contribute to these discussions with your ideas, experiences and opinions!

Thanks!

Ms. Hobbs
